SUMMARY

Junior full-stack developer working in TypeScript, React/Next.js, and Python (Django), with professional C#/.NET experience. Built the database-driven location search on printscan.com (still live in production) and a lead-discovery tool on Next.js, Supabase (PostgreSQL), and LLM APIs. Ships with Git, GitHub Actions CI, and automated tests.

SKILLS

Languages	TypeScript, JavaScript, Python, C#, HTML, CSS
Frameworks	React, Next.js, Django REST Framework, .NET (Razor Pages)
Data & APIs	PostgreSQL (Supabase), REST / JSON, Postman, Google Places API, LLM APIs (OpenRouter)
Tools	Git, GitHub, GitHub Actions (CI/CD), Vercel, Railway, Selenium WebDriver, NUnit
AI Tooling	AI coding assistants (Claude Code), parallel agents and agent orchestration

EXPERIENCE

Freelance Web Developer, Garbacki Digital | May 2026 – Present

- Built a lead-discovery tool (Next.js, TypeScript, Supabase, Google Places API) that finds local businesses with no website, ranks them by reviews and rating, and uses LLM APIs to draft outreach
- Built and launched live websites for 2 paying Long Island clients, both of whom left 5-star Google reviews; also built LLM-powered chatbots with Next.js, using AI-assisted development

Quality Assurance Specialist, PrintScan Fingerprinting | Jul 2023 – Dec 2023

- Built the location search on printscan.com in C# (.NET Razor Pages): a database-driven directory with a page for every location, improving navigation and SEO; still live after the First Advantage acquisition (printscan.com/locations/search)
- Helped build a Selenium regression framework in C# with a senior developer, reducing manual testing by over 40% during sprint cycles
- Built internal automation tools, including automated appointment creation used for testing
- Contributed bug fixes and feature work to the C# codebase

Content Creator, YouTube | Jan 2024 – Jun 2025

- Produced 40+ videos (123K+ views); A/B tested titles and thumbnails using analytics; filmed and edited solo

Guest Advocate, Target | Dec 2021 – Mar 2023

- Resolved customer issues, returns, and transactions daily in a high-volume store

PROJECTS

Little Lemon Restaurant App, React, Django REST, SQL | Jan 2026 – Present

- Full-stack app with menu, cart, reservations, and token-based login; deployed on Vercel (front end) and Railway (API)

Portfolio Site + Selenium Test Framework, React, Vite, C#, NUnit, GitHub Actions | Dec 2025 – Present

- React site at logangarbacki.dev; every deploy triggers a 40+ test Selenium suite (Page Object Model) in a separate repo
- The site reads the latest CI run from the GitHub API and shows the live pass/fail result; public Allure report at logangarbacki.github.io/react-portfolio-selenium-tests

EDUCATION & CERTIFICATIONS

Hicksville High School, Diploma 2023 · GPA 3.8 · AP Computer Science A (score 4)
Meta Full-Stack Engineer Certificate · Foundational C# with Microsoft (freeCodeCamp) · Claude Code in Action (Anthropic)
